INSTRUCTIONS

1. Water down the colors with 50% water to 50% paint.
2. Use a detail brush to apply little flowers around each little knob on the side of the planter with 2 coats of paint.
3. Apply the center of the flower by painting the little knobs with 2 coats of paint.
4. Use a liner brush to apply some little leaves here and there among the flowers.
5. Paint the inside of the planter with 2 coats of the watered-down Pink Berry using a fan brush.
6. Use a small brush to apply 2 coats of watered-down Pink Berry to the rim of the planter.

TIPS

- By watering the paint down, you'll achieve a more translucent, watercolor effect. Do not worry about 3 coats, we are not going for solid colors.
- If desired, use a pencil or water-based marker to sketch on the flowers.
- Allow the flowers and leaves to overlap slightly.
